

How to uninstall Bitdefender Mobile Security for Android

If you want to uninstall Bitdefender Mobile Security for Android, here you will find a step-by-step tutorial on how to remove this security solution. There often comes a time when you just don't need to keep an app around. Uninstalling the Bitdefender app from Android smartphones and tablets is a very easy step for all users, beginner or expert level.

Select one of the following uninstall methods to expand it and learn more:

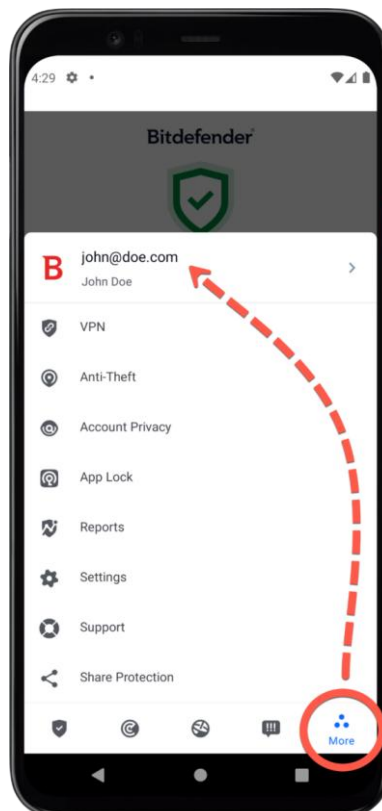

Uninstall Bitdefender Mobile Security for Android - Method 1

To uninstall Bitdefender Mobile Security for Android:

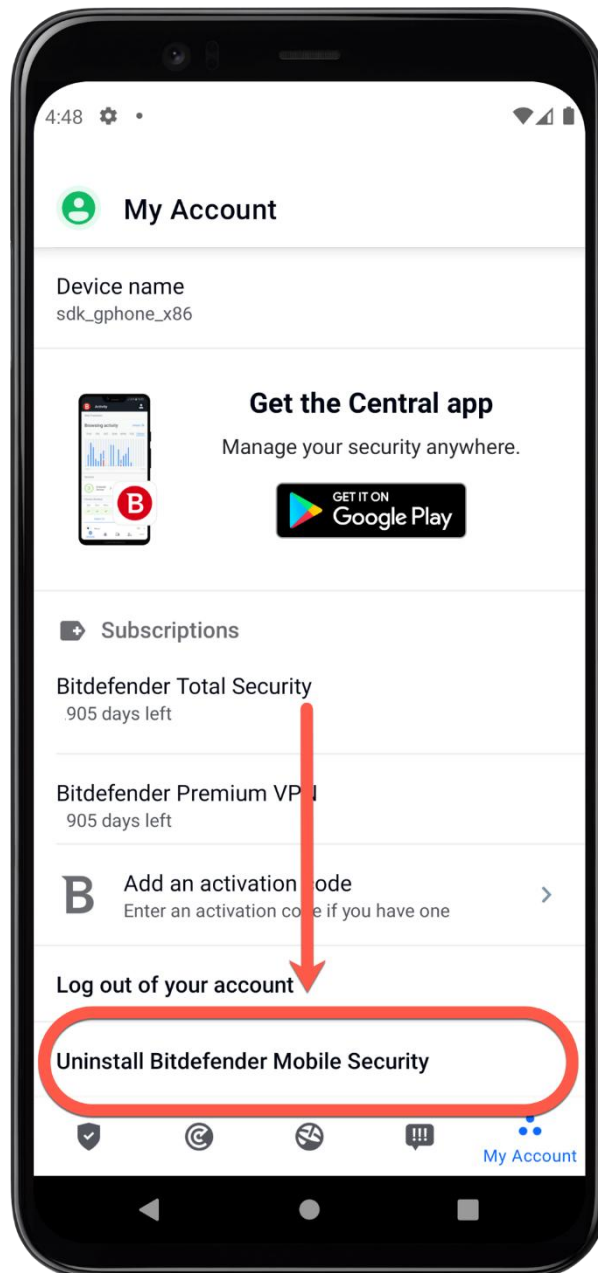

1. First, open the Bitdefender Mobile Security app installed on your Android device.

2. Next, tap the **More** icon on the bottom navigation bar, then select your email address in the menu that appears.

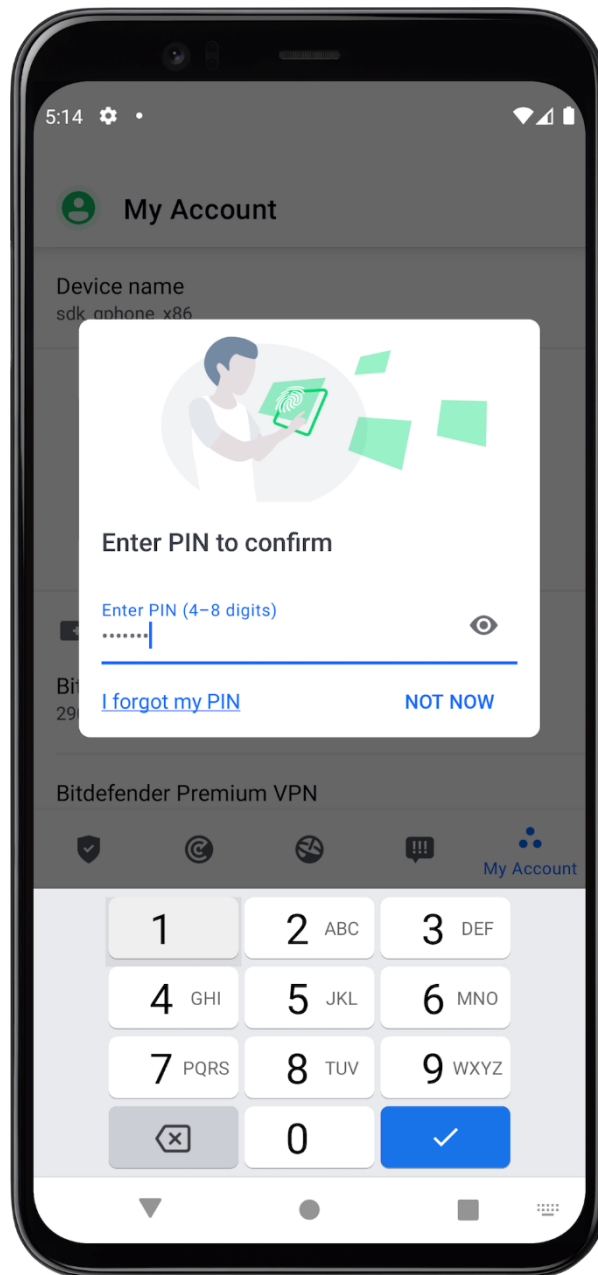

3. Now scroll down and tap on the **Uninstall Bitdefender Mobile Security** option to remove the Bitdefender app.

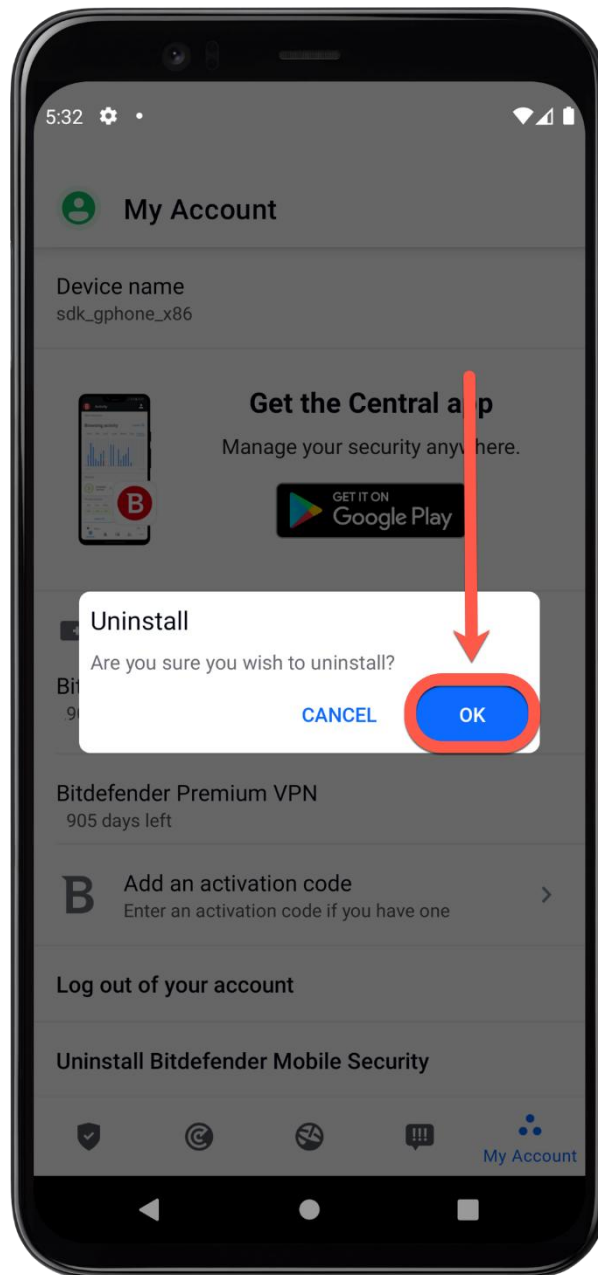

① **Note:** If you don't have the option to uninstall Bitdefender it means that the app wasn't granted device administrator permissions yet. In this case, use the regular [uninstall method for Android apps](#).

4. To continue the uninstallation process, input the application **PIN** you chose when you set up Bitdefender Mobile Security.

① **Note:** If you don't remember the PIN tap on "I forgot my PIN" and you will be able to retrieve it from your [Bitdefender Central account](#) → My Devices → your Android device → Rename  → Application PIN.

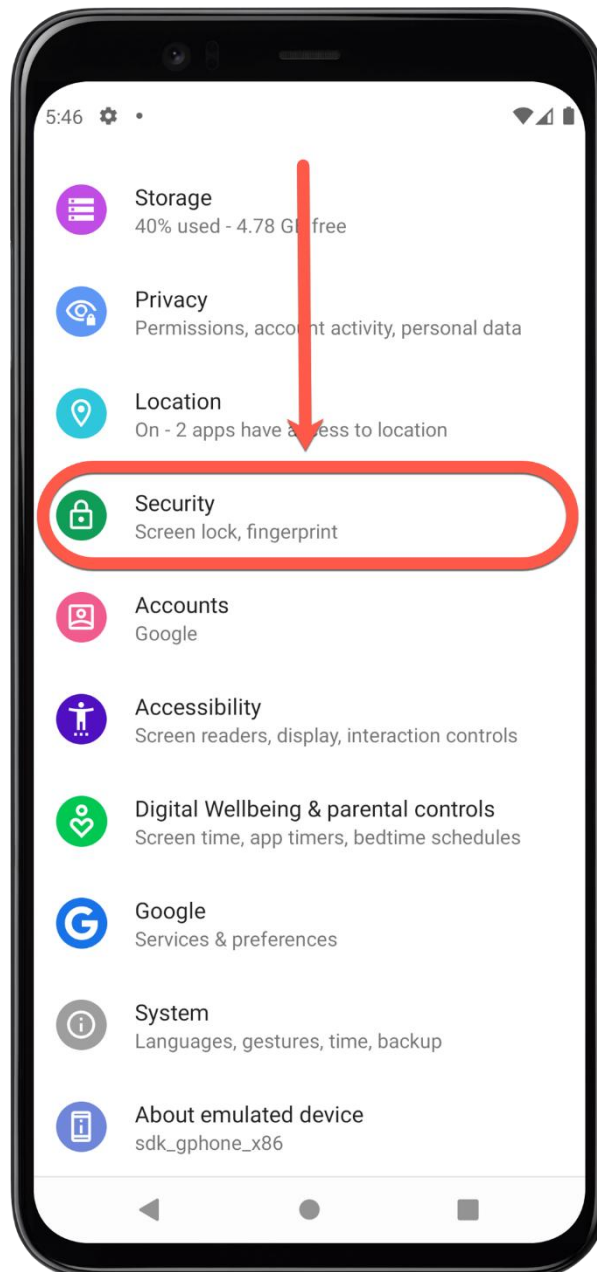

5. Tap the **OK** button to confirm that you wish to delete the Bitdefender app.

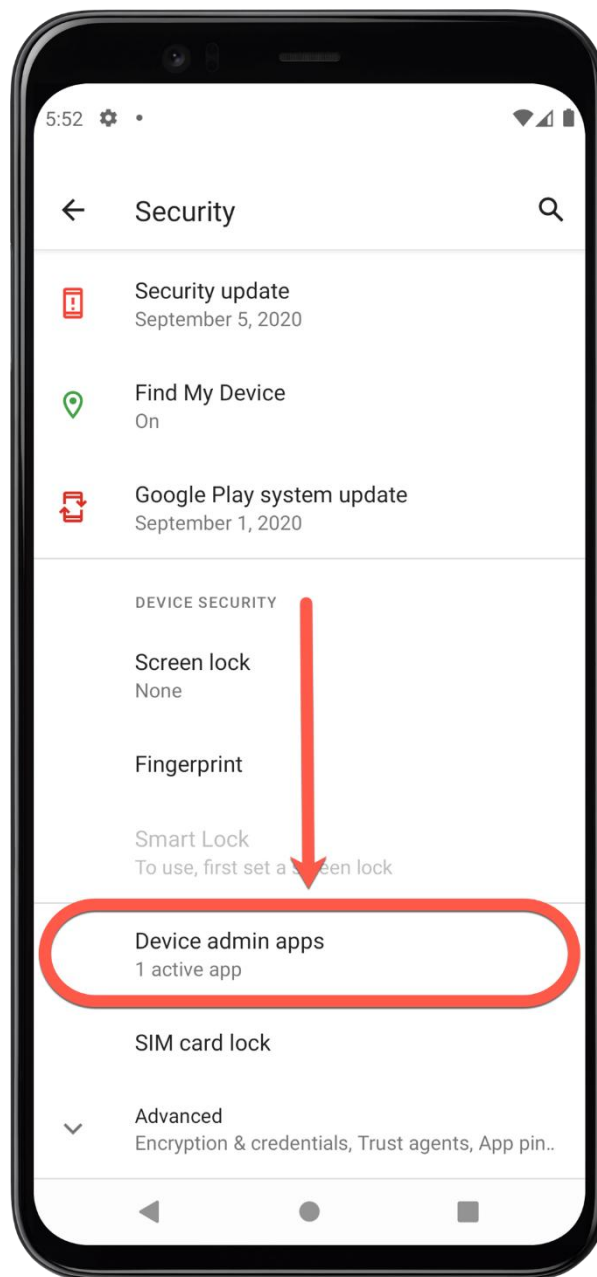

Uninstall Bitdefender Mobile Security for Android - Method 2

If Bitdefender Mobile Security for Android fails to uninstall using Method 1 or if you don't manage to recover the PIN, disable the **Device administrator** option. To do this, follow the steps below:

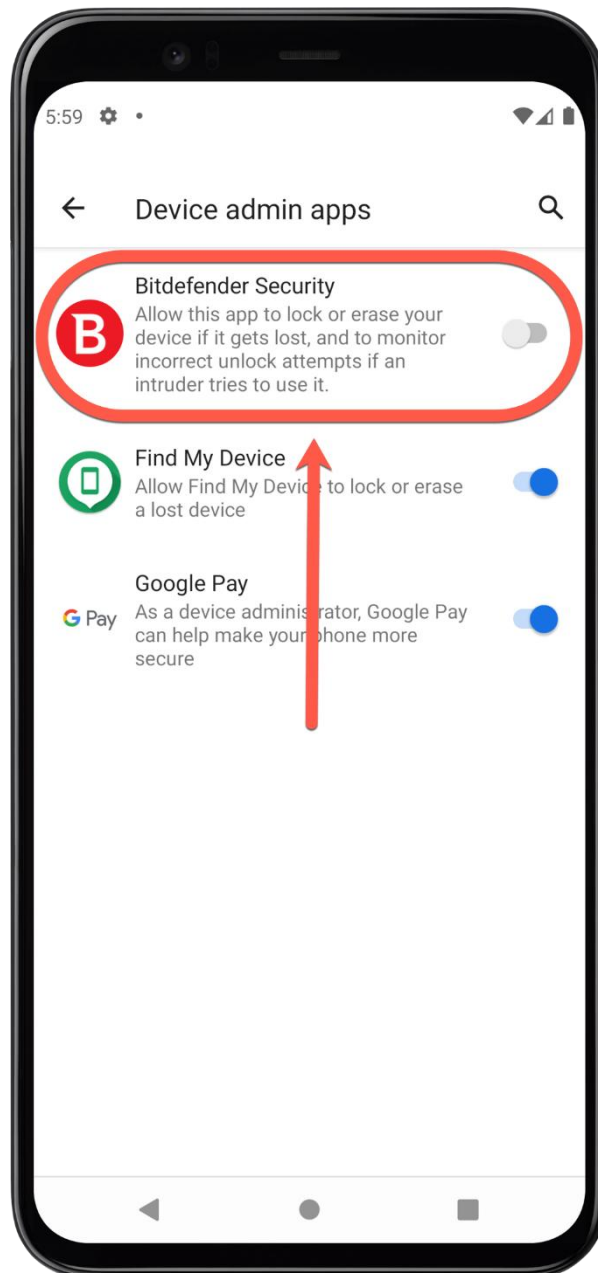

1. Open your device **Settings** ⚙️ and tap on **Security**.

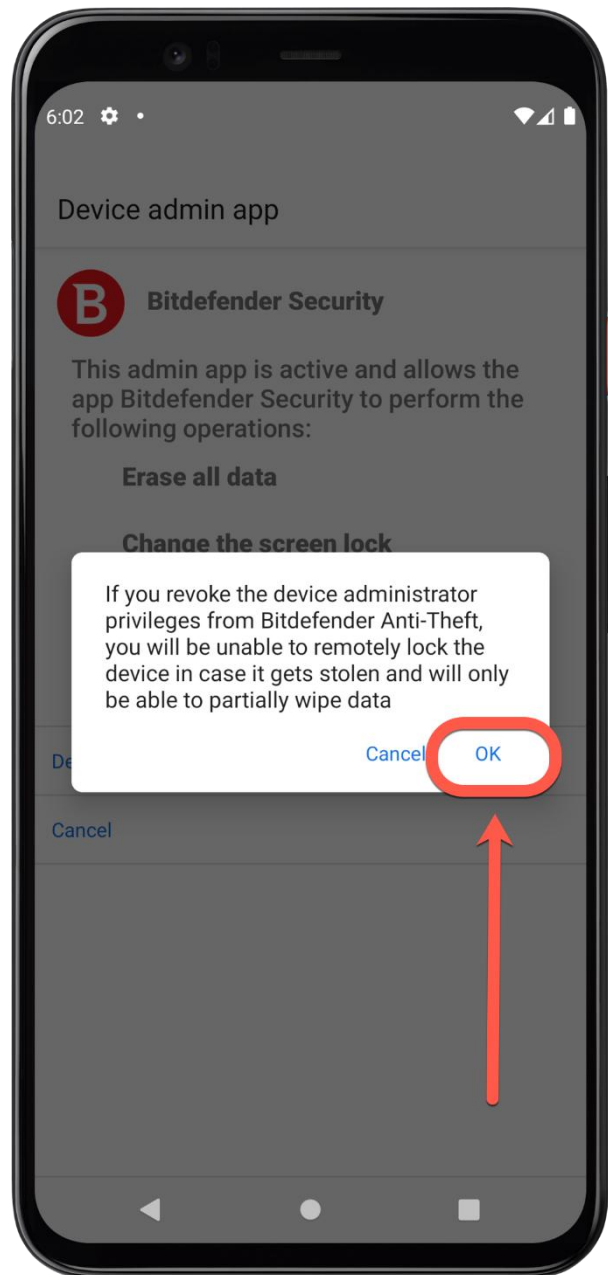

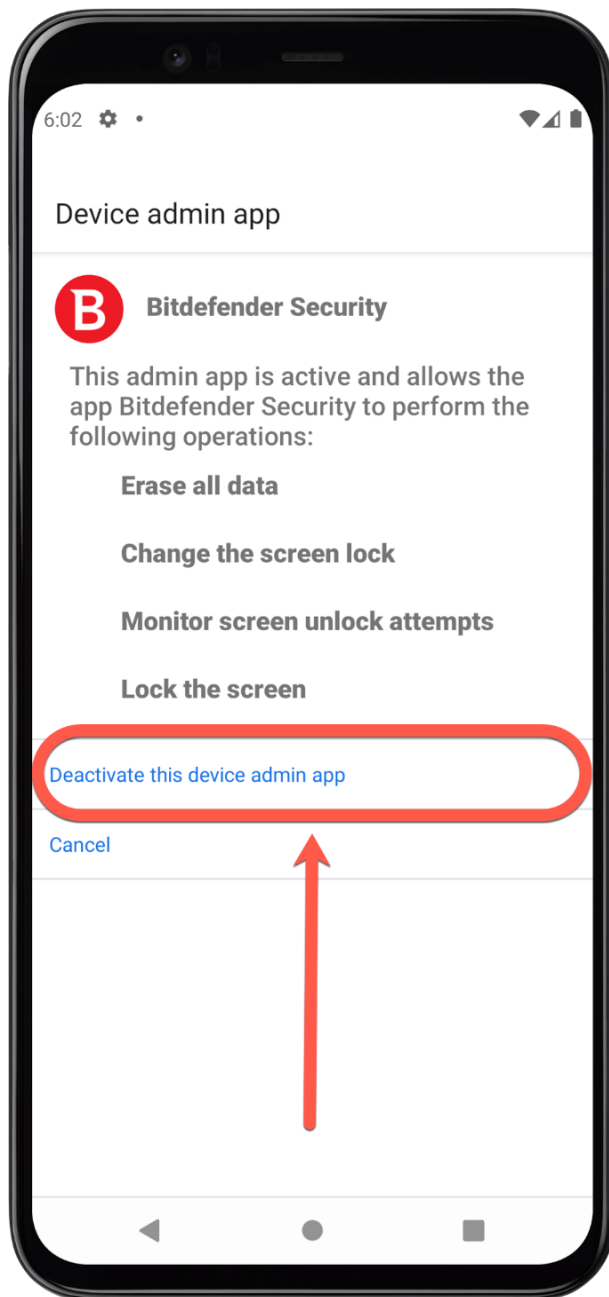

2. From Security, access the **Device administrators / Device admin apps** option.

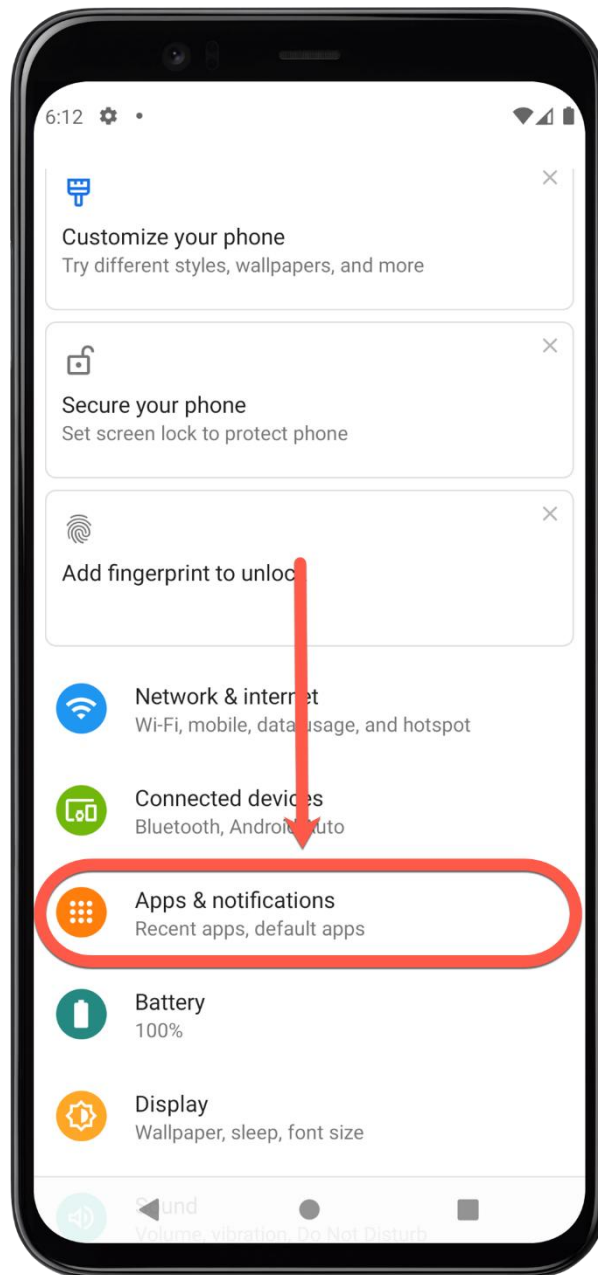

3. Disable the device administrator privileges for Bitdefender Mobile Security: toggle **Bitdefender Security** to the off position or uncheck the box next to it. If there is no box or switch, simply tap on the app name.

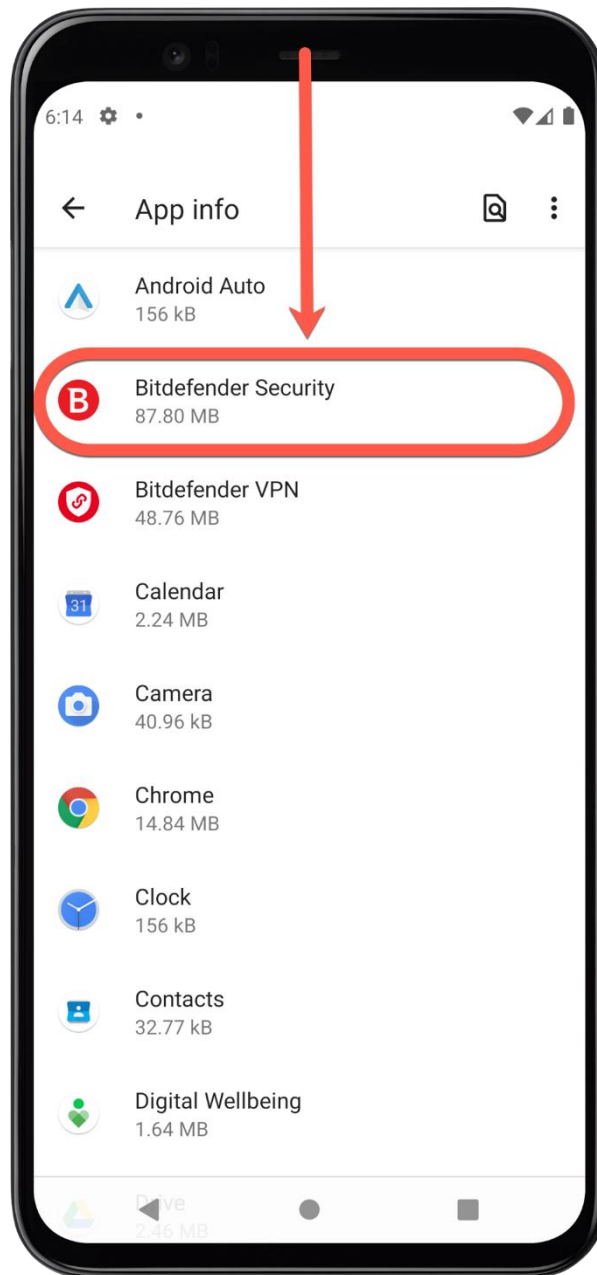

Tap **Deactivate** on the next screen and then **OK** to continue.

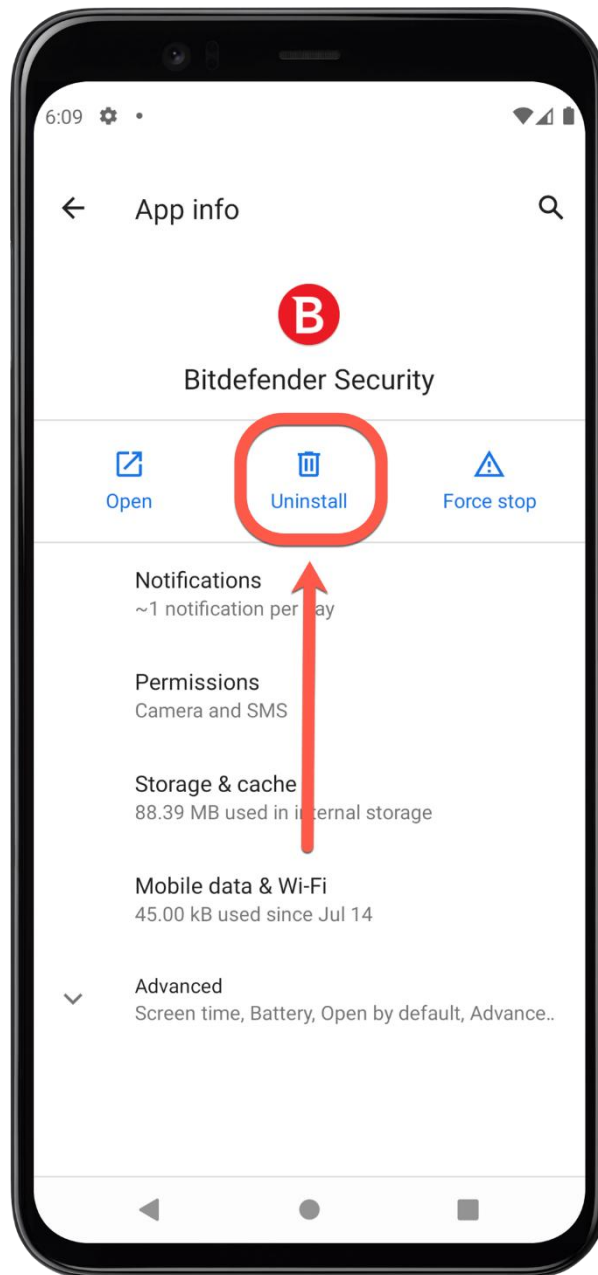

4. Now you can continue removing Bitdefender Mobile Security for Android as you would do with another application. Return to the Android **Settings** ⚙ screen and select **Apps**.

5. Tap on **Bitdefender Security**.

6. Press the **Uninstall** button. Select **OK** if you are asked to confirm your wish to uninstall the Bitdefender Mobile Security app from your Android device.

If you have managed to follow all the instructions provided in this short guide, you have succeeded in removing the Bitdefender Mobile Security app from Android.
