

How to install Bitdefender's Anti-Tracker browser extension on Windows

In this tutorial, you will learn how to install Anti-Tracker using your Bitdefender security solution for Windows. Bitdefender's Anti-Tracker browser extension helps you increase your online privacy. It blocks [trackers](#) that collect your data and allows you to view and manage this information on each website you visit. It keeps your browsing data private and enhances performance by loading webpages faster. Bitdefender Anti-Tracker supports the following PC browsers:

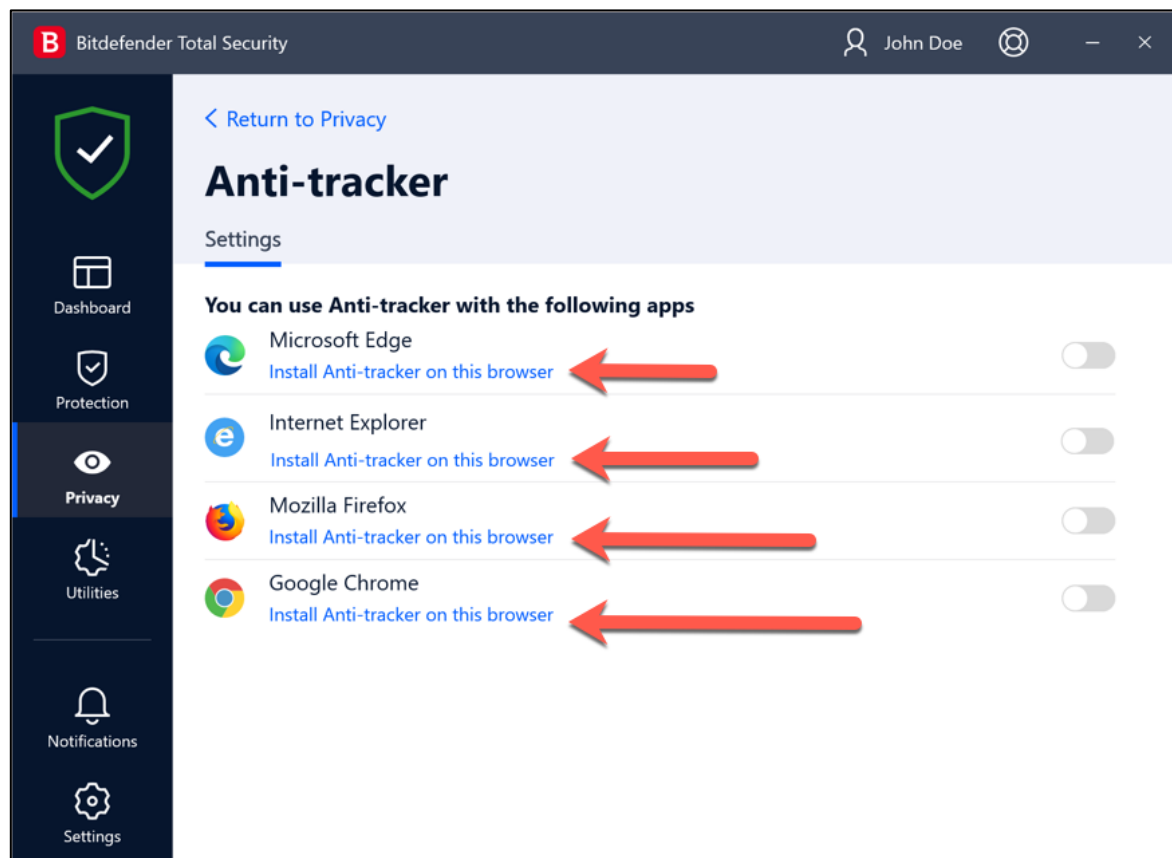

- Microsoft Edge
- Internet Explorer
- Mozilla Firefox
- Google Chrome

Once [Bitdefender is installed on your Windows computer](#), follow the steps below to add the Anti-tracker extension to your browser and [block tracking cookies](#).

1. Click on **Privacy** on the left-hand side of the Bitdefender interface.
2. In the **Anti-tracker** pane, go to **Settings**.

3. Click **Install Anti-tracker on this browser** next to the web browser(s) currently installed on your computer – Microsoft Edge, Internet Explorer, Mozilla Firefox, Google Chrome.

4. You will be redirected to your browser's extension store. Follow the appropriate instructions, based on the web browser that you are using:

Microsoft Edge

- Edge will launch and take you to the [Bitdefender Anti-tracker page](#) in Microsoft Edge Add-ons.
- Click the "Get"  button.
- Click **Add extension** in the prompt that appears to add the Anti-tracker extension to Microsoft Edge.

Internet Explorer

- Open Internet Explorer and you will see this message: The 'Bitdefender Anti-tracker' add-on from Bitdefender SRL is ready to use.
- Click **Enable** to activate the Anti-tracker extension in Internet Explorer.

Mozilla Firefox

- Click **Install Anti-tracker on this browser** on the page that opens in Firefox.
- Choose **Continue to Installation** in the top right corner pop-up.
- Click the **Add** button, then **Okay** to complete the Anti-tracker installation.

Google Chrome

- Chrome will launch and take you to the [Bitdefender Anti-tracker page](#) in Chrome web store.
- Click the “Add to Chrome”  button.
- In the confirmation box, click **Add extension** to enable the Anti-tracker extension in Google Chrome.
