

How to Add and Manage Bookmarks in Bitdefender Safepay

With Safepay bookmarks, you can add your favorite websites to the Bitdefender Safepay dashboard for quick and easy access. In this article, we will show you how to create, edit, delete, export, and import bookmarks in Bitdefender Safepay.

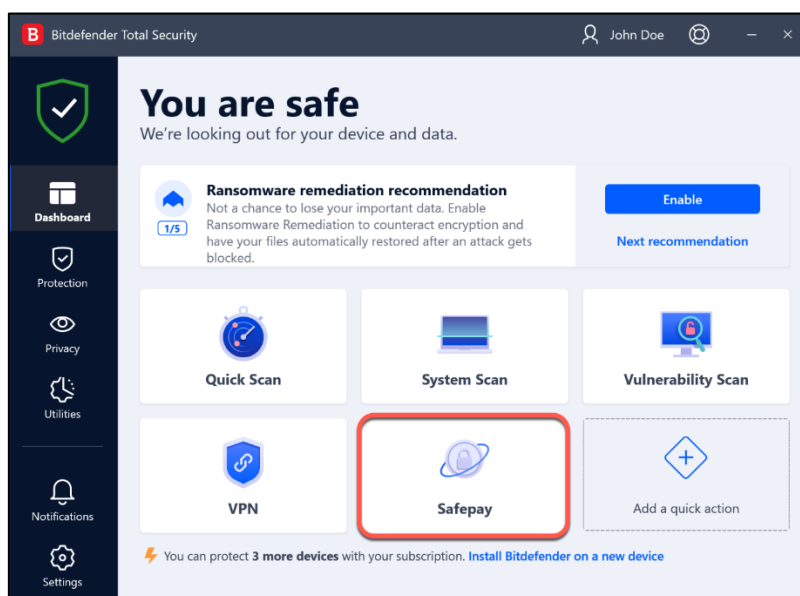

Bitdefender Safepay is a web browser designed to help you secure sensitive browsing sessions, especially when you shop or bank online. By default, Bitdefender detects when you navigate to an online banking site in any web browser and prompts you to launch it in Safepay.

Explore the following sections for detailed steps on how to add and manage your Safepay bookmarks.

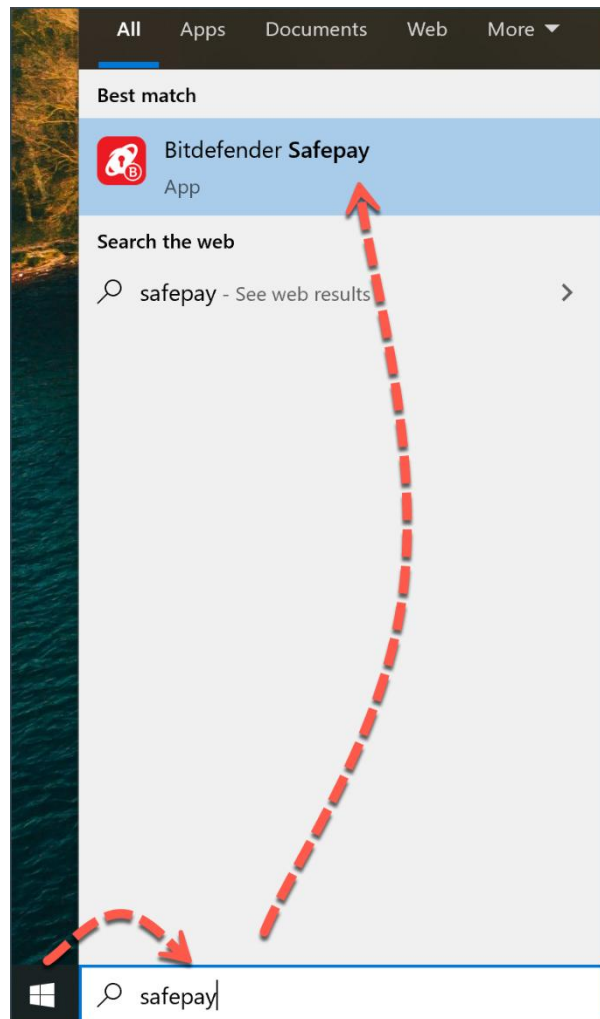

Add Safepay bookmarks

If you want to quickly revisit a site later, you can bookmark it in Safepay.

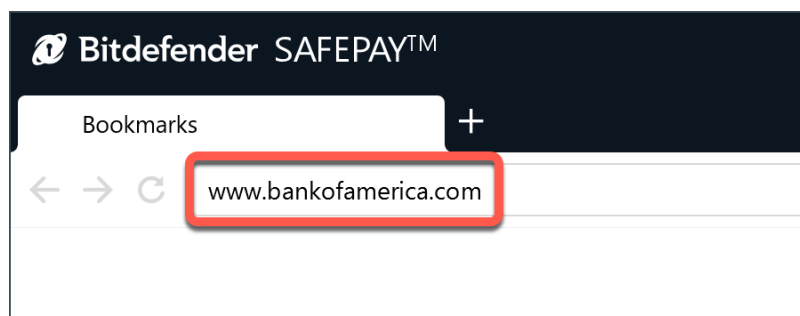

1. Open **Safepay**: Bring up the Bitdefender interface and access the **Safepay** panel.

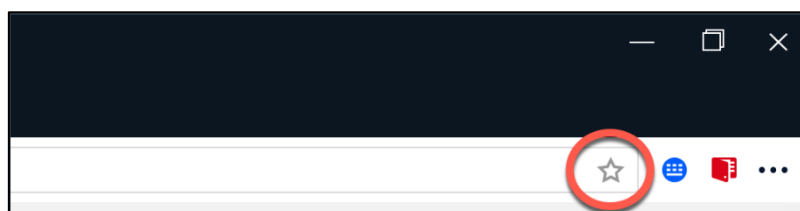

Or do a quick search: in the search box on the taskbar type **safepay**. Or press the Windows  key on your keyboard and start typing safepay. Then hit Enter on your keyboard to launch Bitdefender Safepay.

2. Navigate to the page you want to add as a bookmark.

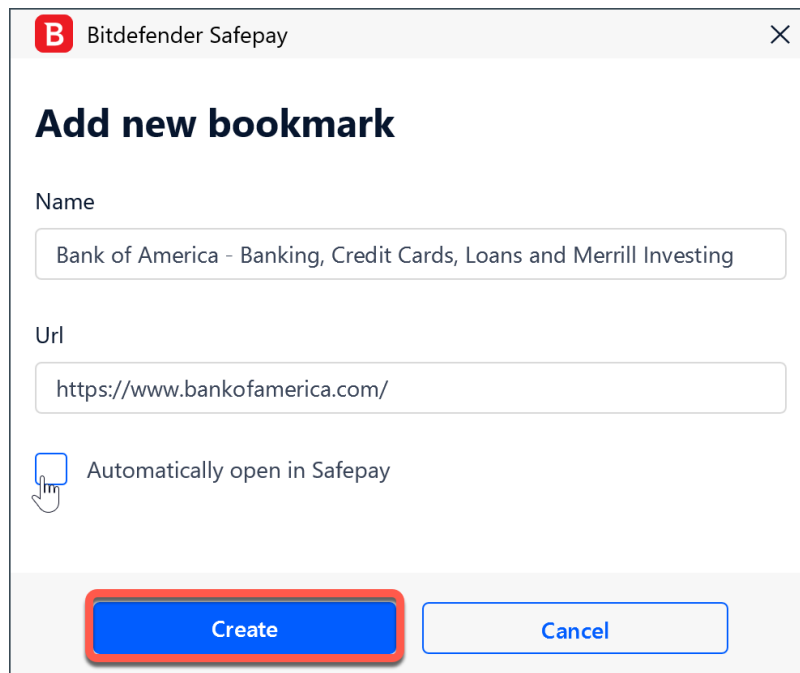

3. Select ☆ on the address bar.

4. Click **Create**. You will see the website added to the Bookmarks list.

NOTE: Check the “Automatically open in Safepay” box if you want the bookmarked page to open with Safepay each time you access it from another web browser.

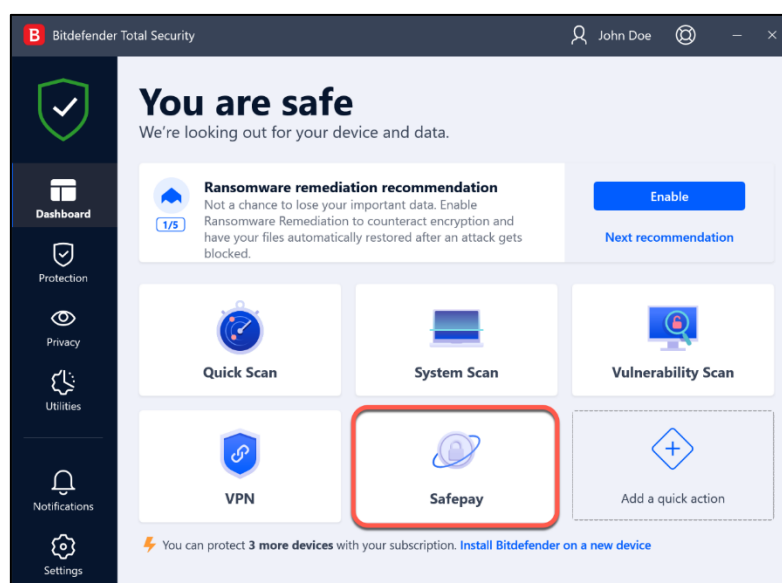

The screenshot shows a dialog box titled "Add new bookmark" from Bitdefender Safepay. It has two input fields: "Name" with the text "Bank of America - Banking, Credit Cards, Loans and Merrill Investing" and "Url" with the text "https://www.bankofamerica.com/". Below these fields is a checkbox labeled "Automatically open in Safepay" which is currently unchecked. At the bottom, there are two buttons: "Create" (highlighted with a red border) and "Cancel".

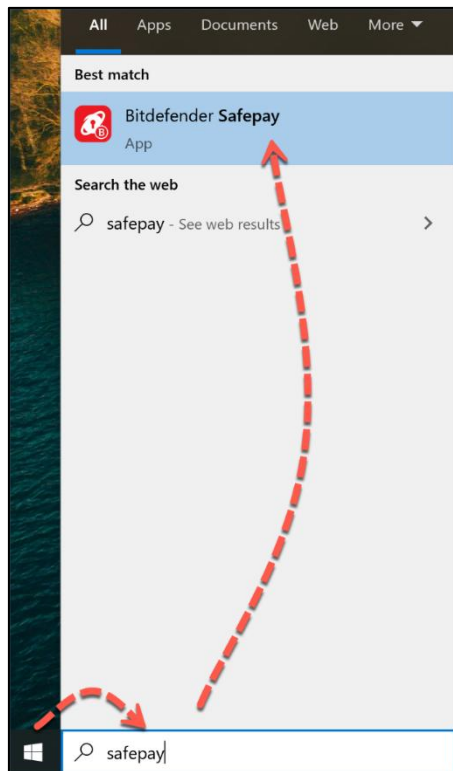

You can also create a bookmark directly from the Bookmarks menu: click the plus (+) panel, enter the name of the website (e.g. Bitdefender), and the URL of the website (e.g. www.bitdefender.com). Then click Create.

Edit Safepay bookmarks

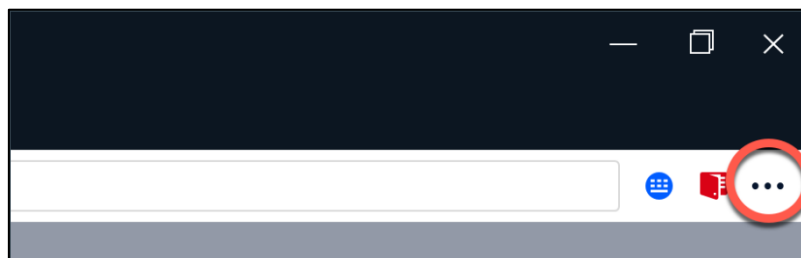

1. Open **Safepay**: bring up the Bitdefender interface and access the **Safepay** panel.

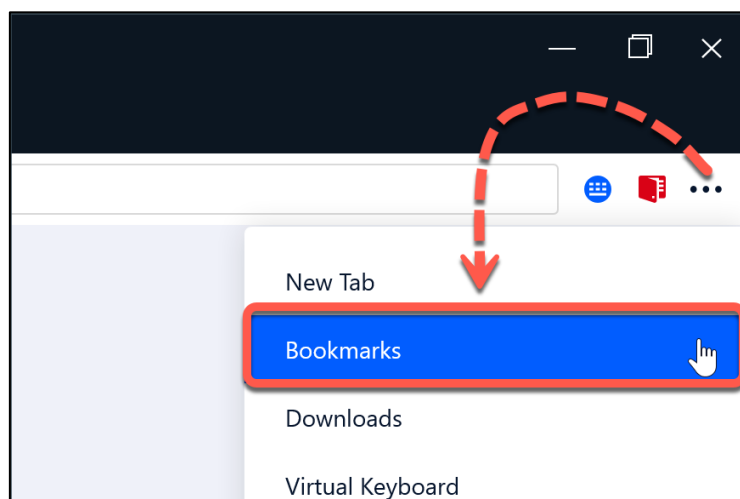

Or press the Windows  **Start** menu in the lower-left corner of your screen, then type in **safepay** and hit Enter on your keyboard. This will launch Bitdefender Safepay.

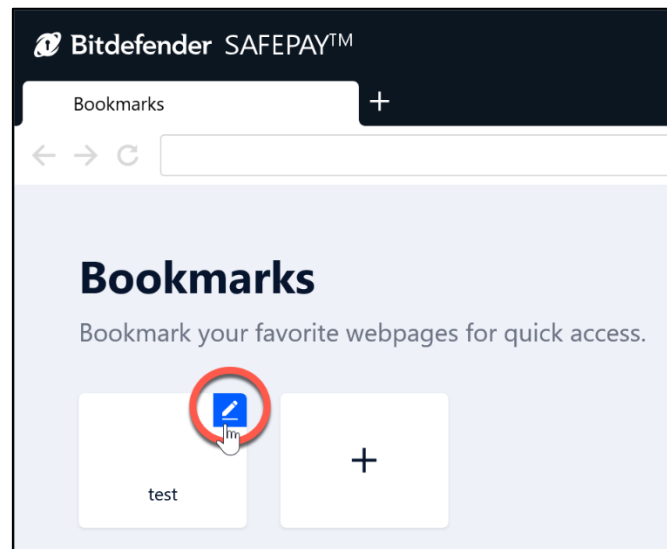

2. Click the menu **...** (three dots) next to the address bar.

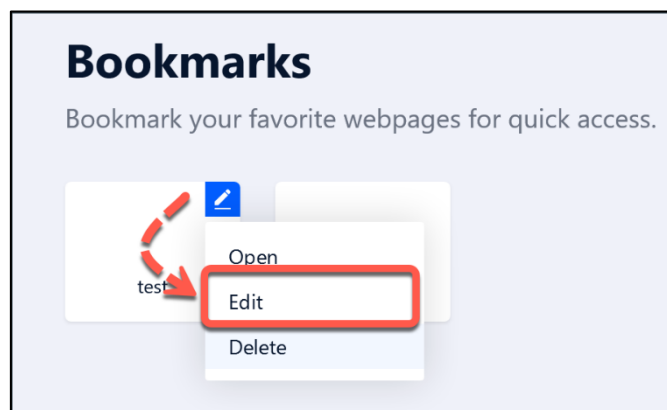

3. Choose **Bookmarks**.

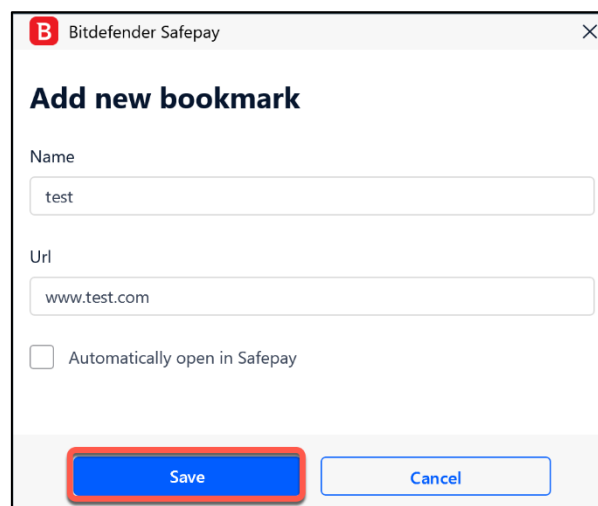

4. In the Bookmarks list hover, the mouse cursor over the bookmark you want to modify, then click the **pencil** icon that appears in the top right corner.

5. Choose **Edit** from the menu to change a bookmark.

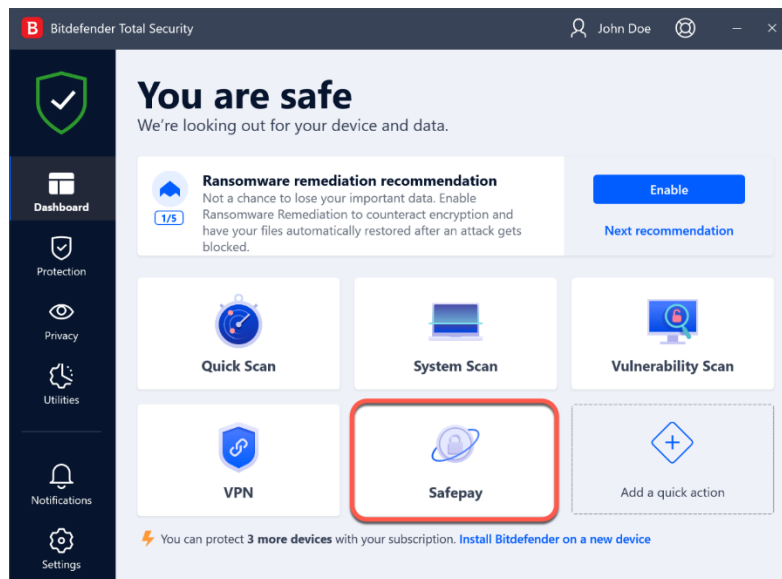

6. Press **Save** after making the changes.

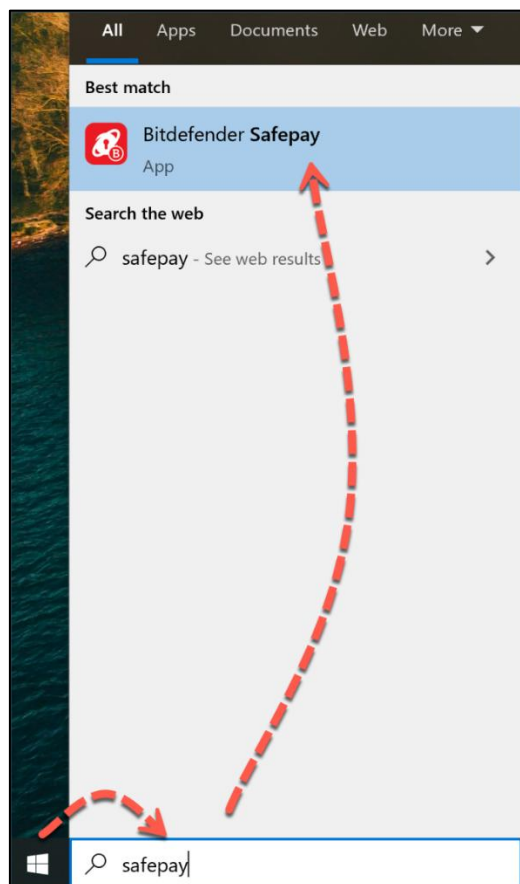

The screenshot shows a dialog box titled 'Add new bookmark' from Bitdefender Safepay. It has two input fields: 'Name' with the value 'test' and 'Url' with the value 'www.test.com'. There is a checkbox labeled 'Automatically open in Safepay' which is currently unchecked. At the bottom, there are two buttons: 'Save' (highlighted with a red rectangle) and 'Cancel'.

Delete Safepay bookmarks

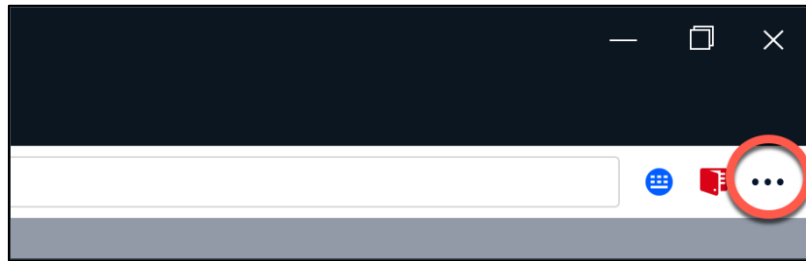

1. Open **Safepay**: bring up the Bitdefender interface and access the **Safepay** panel.

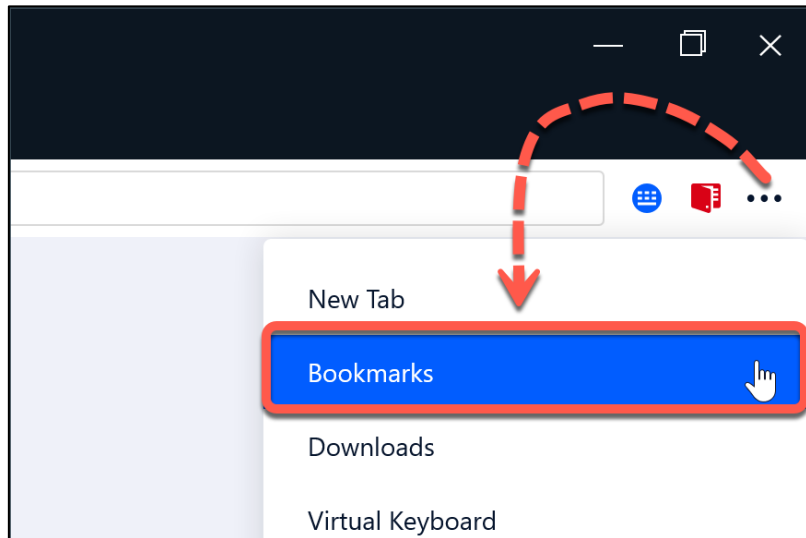

Or press the Windows  **Start** menu in the lower-left corner of your screen, then type in **safepay** and hit Enter on your keyboard. This will launch Bitdefender Safepay.

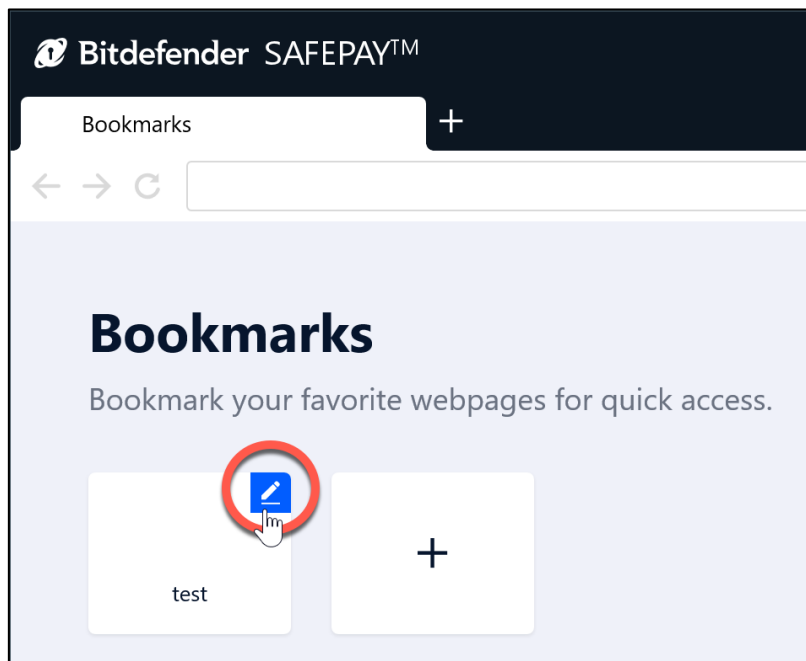

2. Click the Settings menu ... (three dots) next to the address bar.

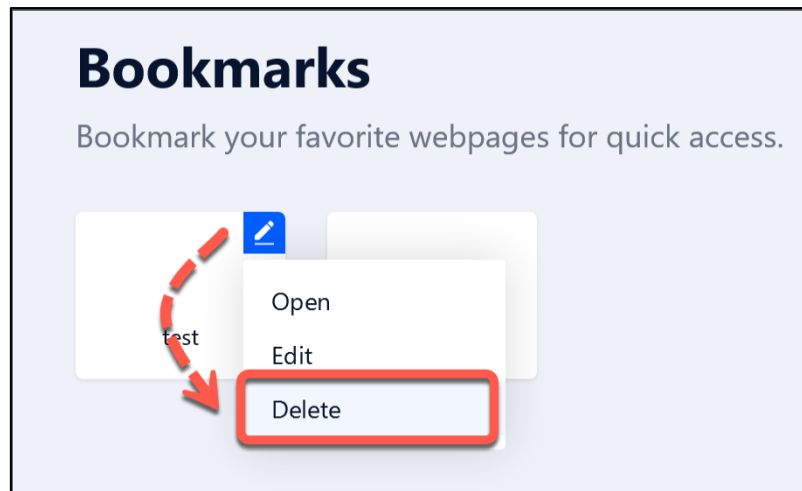

3. Choose **Bookmarks**.

4. In the Bookmarks list hover, the mouse cursor over the bookmark you want to remove, then click the **pencil** icon that appears in the top right corner.

4. Choose **Delete** from the menu to remove a bookmark. The bookmark will be eliminated from the Bookmarks list.

Export & Import Safepay bookmarks

Safepay does not provide a manual export option. Bookmarks are preserved automatically only when you uninstall Bitdefender using the “I want to reinstall” option – [Learn how to reinstall Bitdefender](#).

When you reinstall Bitdefender using the reinstall option mentioned above, you’re existing Safepay bookmarks are automatically restored.

Important! If you uninstall Bitdefender without clicking the Reinstall button (for example, by choosing Remove or using the uninstall tool), your Safepay bookmarks will be permanently deleted and cannot be recovered.
