

## How to Set Up Scam Protection Pro on Windows

Follow the steps below to set up Scam Protection Pro on Windows computers and stay safe with all-in-one scam protection powered by AI.

### Step 1: Open Scam Protection Pro

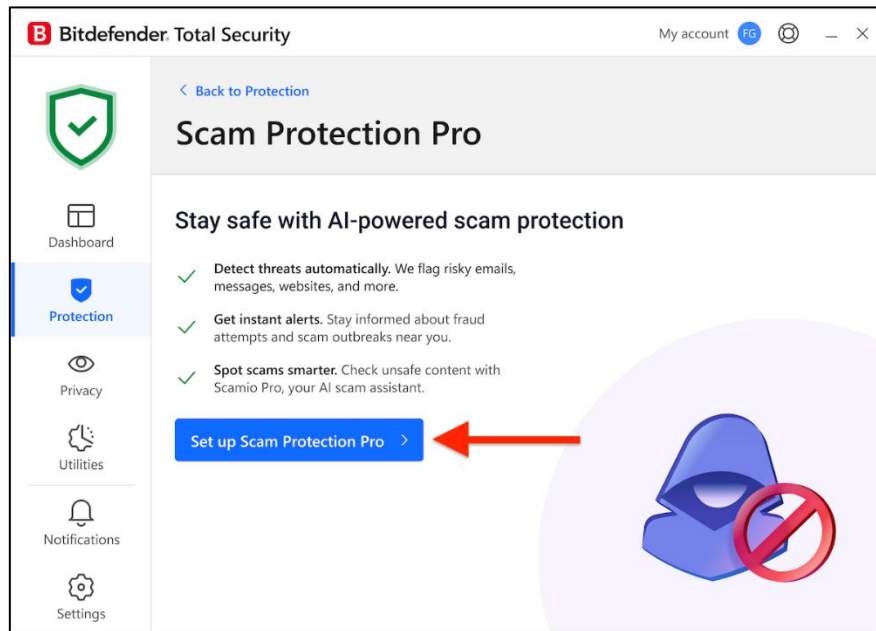

1. Open **Bitdefender Total Security**.
2. On the main dashboard, either:
  - Click on **Scam Protection Pro** directly, or

- Click on **Protection** on the left side menu, then open the **Scam Protection Pro** pane.

## Step 2: Get Started

1. Click the **Set-up Scam Protection Pro** button on the overview screen.

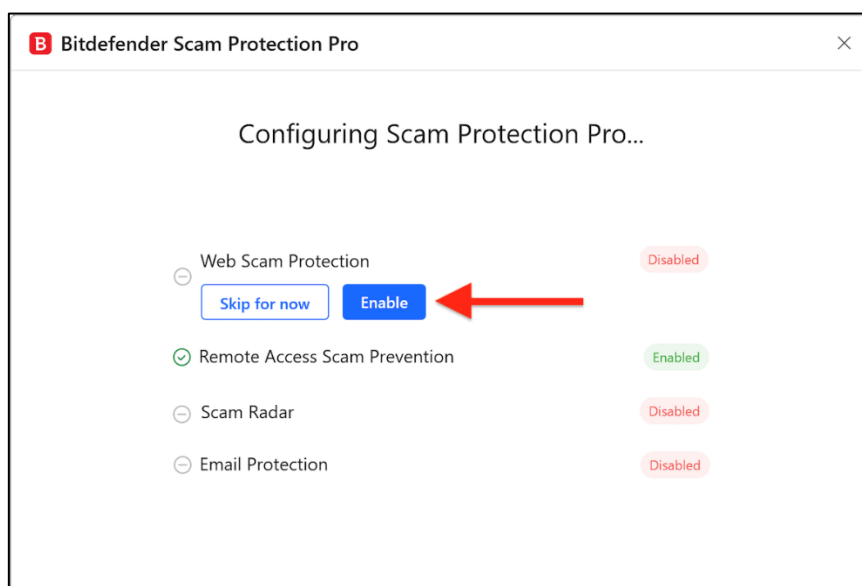

## Step 3: Set up Scam Protection Pro

You will see which Scam Protection Pro features are already enabled and be guided to configure those that need extra steps. Follow the on-screen instructions to grant the required permissions:

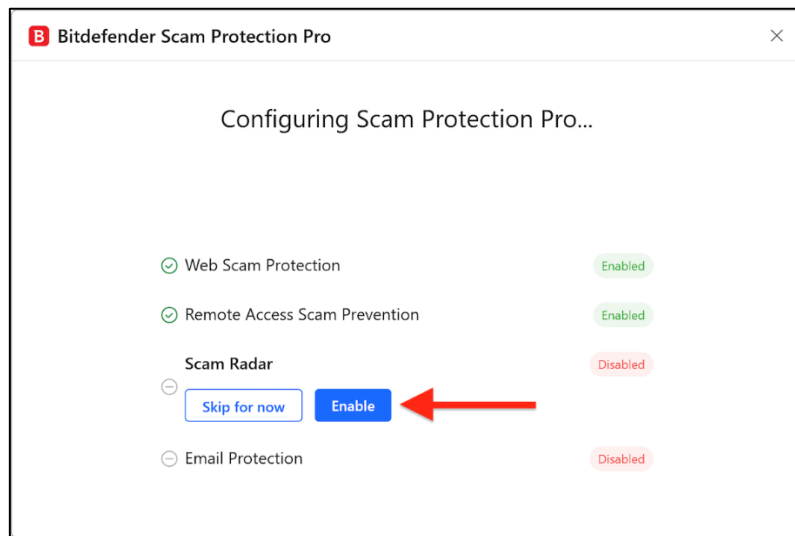

### Web Scam Protection

1. Enable Web Scam Protection if it's disabled.
2. Choose **Yes** when prompted to enable online scam protection.

## Scam Radar

1. Click the **Enable** button to receive notifications about emerging scam campaigns in your region.

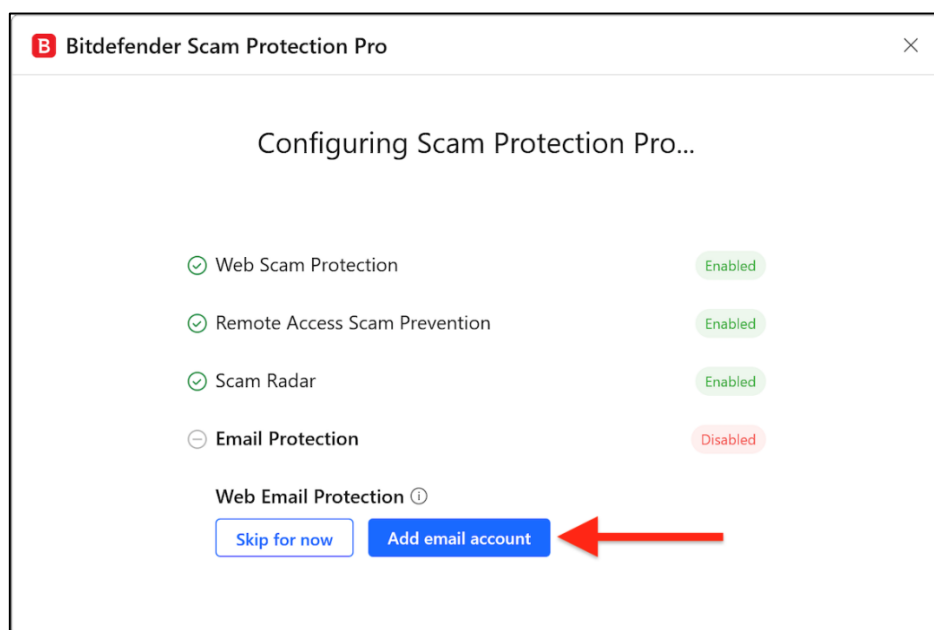

## Email Protection

### Web Email Protection

Includes [Email Protection](#) for Gmail and Outlook accounts accessed in a web browser.

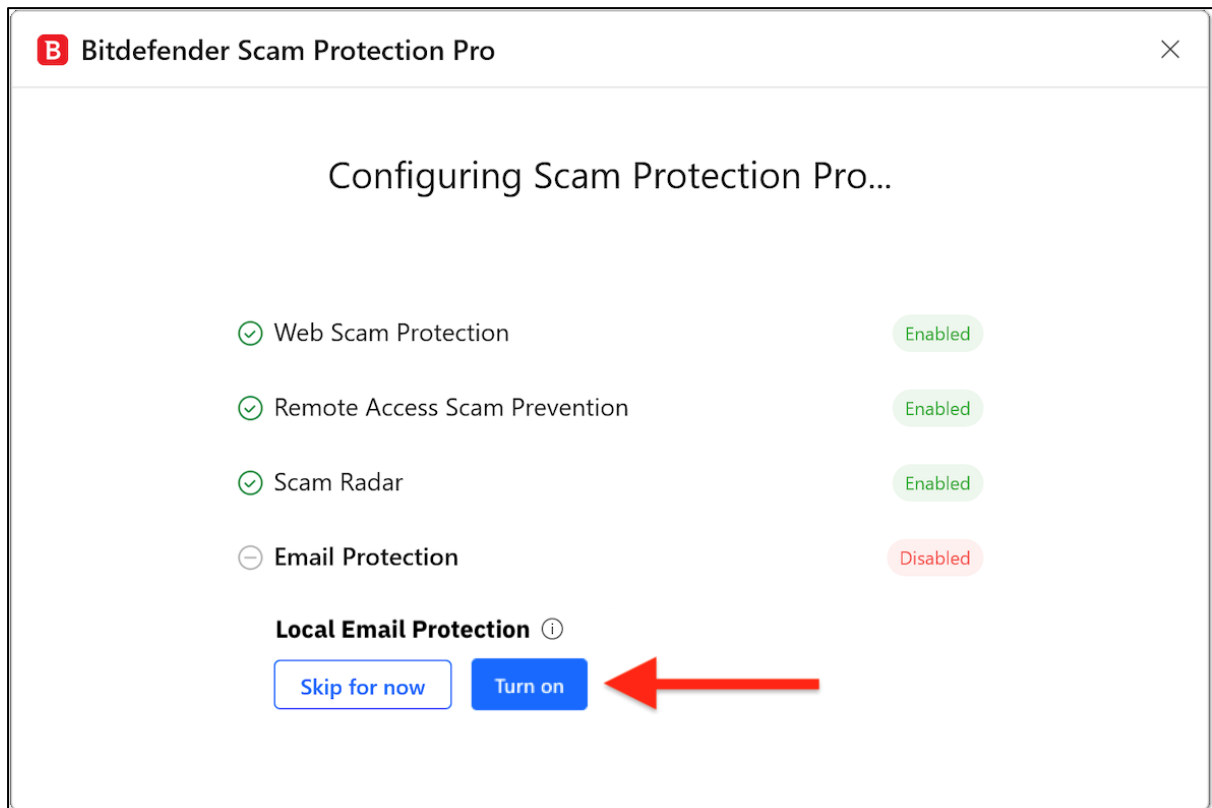

1. If Web Email Protection is disabled, click the **Add email account** button.
2. Choose your email provider (Google or Outlook).
3. Sign in with your Google or Outlook email account.
4. Allow Bitdefender to scan your mailbox.

## Local Email Protection

Includes Antispam for Outlook and Thunderbird email apps, along with the Online Threat Prevention switch for local email protection.

1. Enable Local Email Protection if it's disabled.
2. Choose **Yes** when prompted to enable local email protection.

## Step 4: Finish Setup

Once all Scam Protection Pro components are enabled, you can close the setup window.

You are all set! You have successfully set up Scam Protection Pro on your Windows computer. Bitdefender is now ready to help you with:

- Automatic scam detection. Identifies and blocks scams in your email, browser, messages, and other apps.
- New scams recognition. Keeps you safe by detecting even the newest scam patterns as they evolve.
- Scamio Pro. An advanced AI scam assistant that detects scams and helps you stay safe.
