

Switch Account: Connect your apps to another Bitdefender Central account

You can change the Central account (e-mail address) associated with each of your Bitdefender apps from the Switch Account feature. To connect the installed Bitdefender products to a different Central account, follow the instructions below based on your Bitdefender app and device.

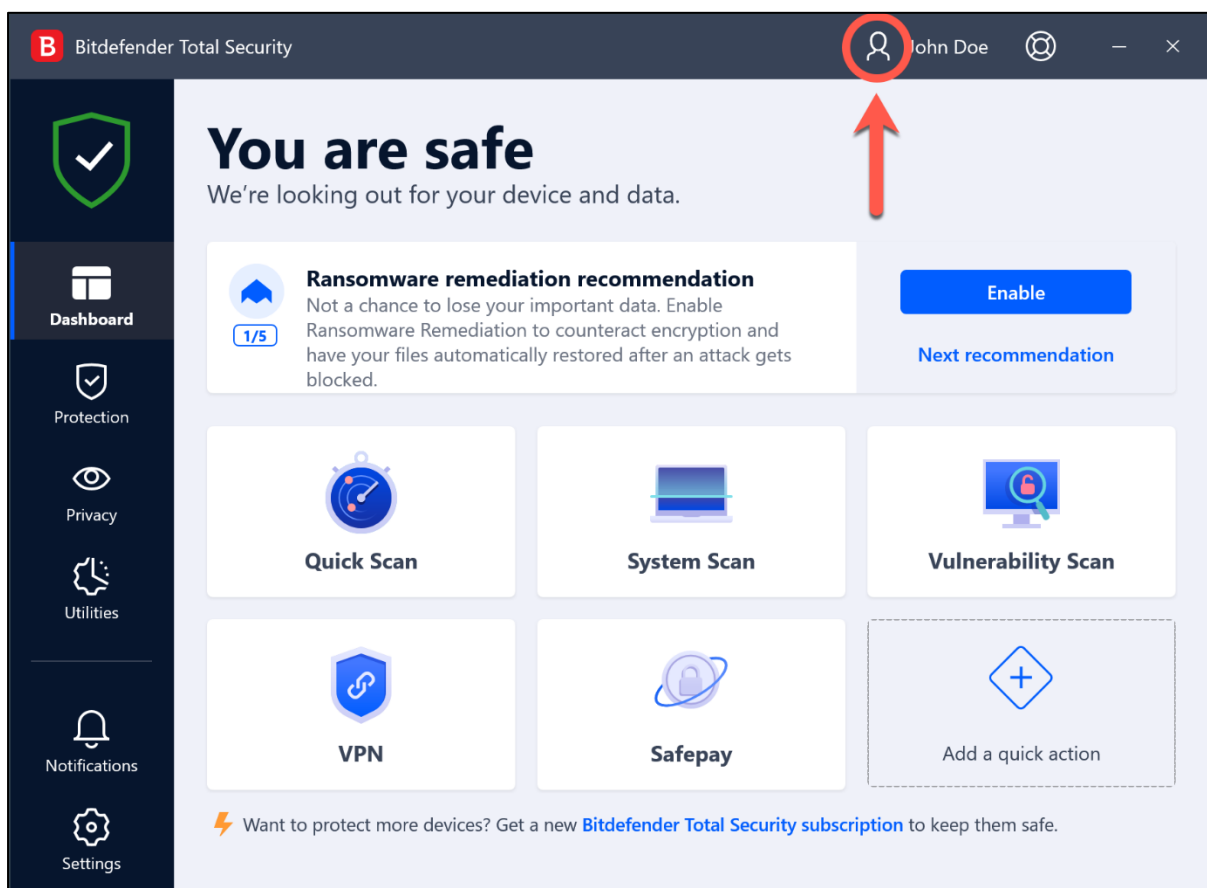

① **Note:** The features of the Bitdefender product will change according to the subscription available on the new Bitdefender Central account.

Switch account in Bitdefender Security

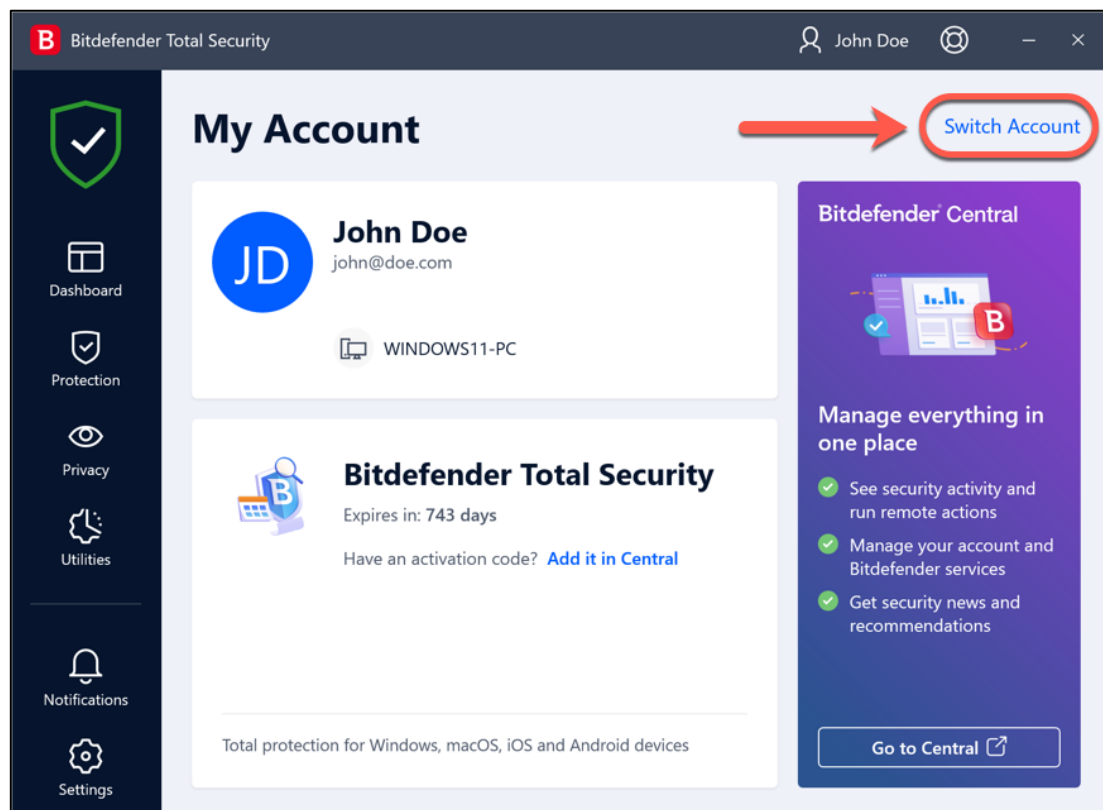

Windows

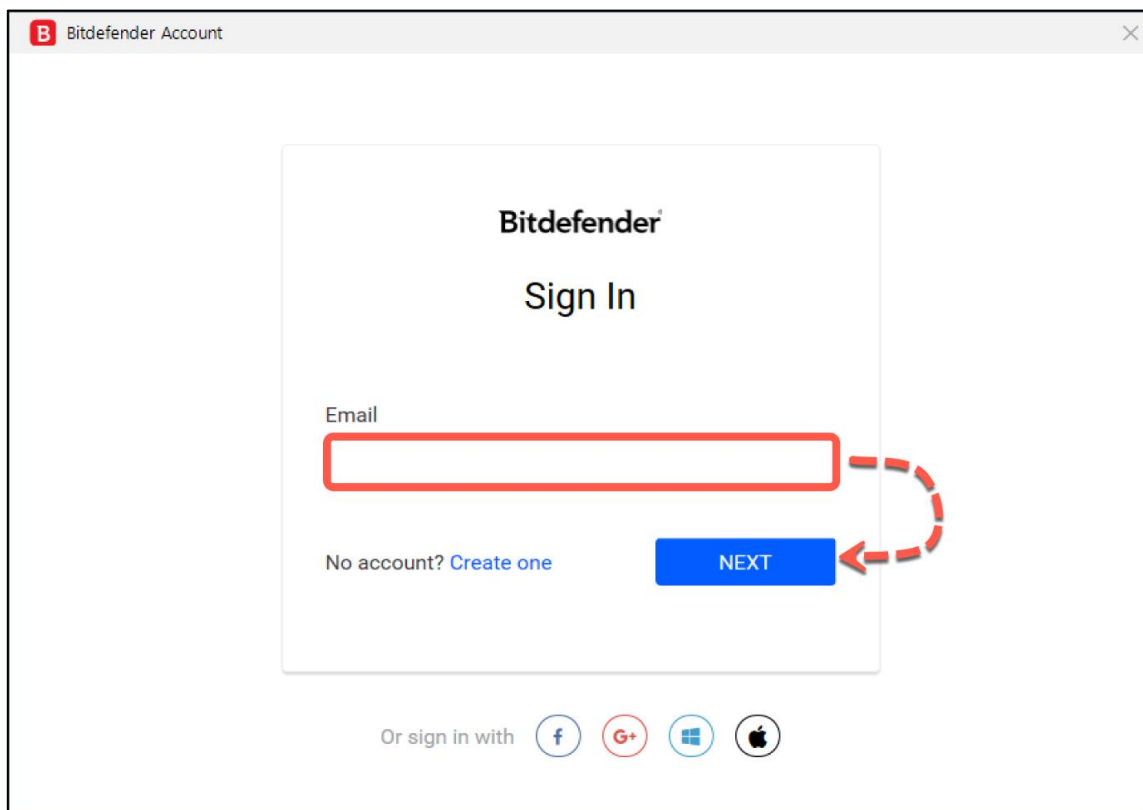

1. Double-click the Desktop shortcut to open the Bitdefender security solution dashboard.
2. Click the account  icon in the top right corner of the Bitdefender interface.

3. Click the **Switch Account** button to change the account linked to the computer.

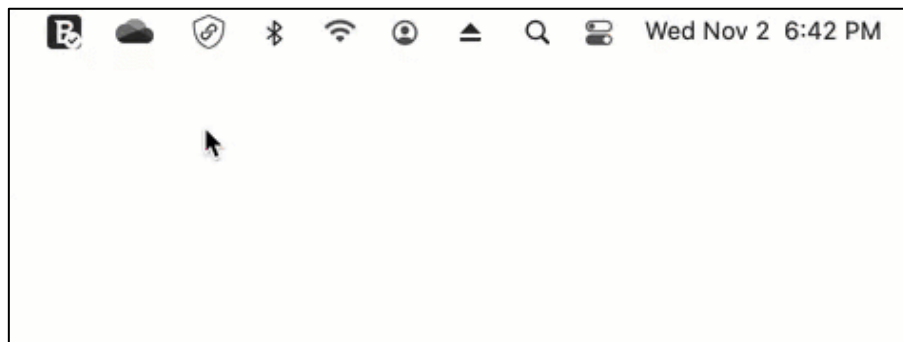

4. **Sign in** with the e-mail address and the password of the other Central account.

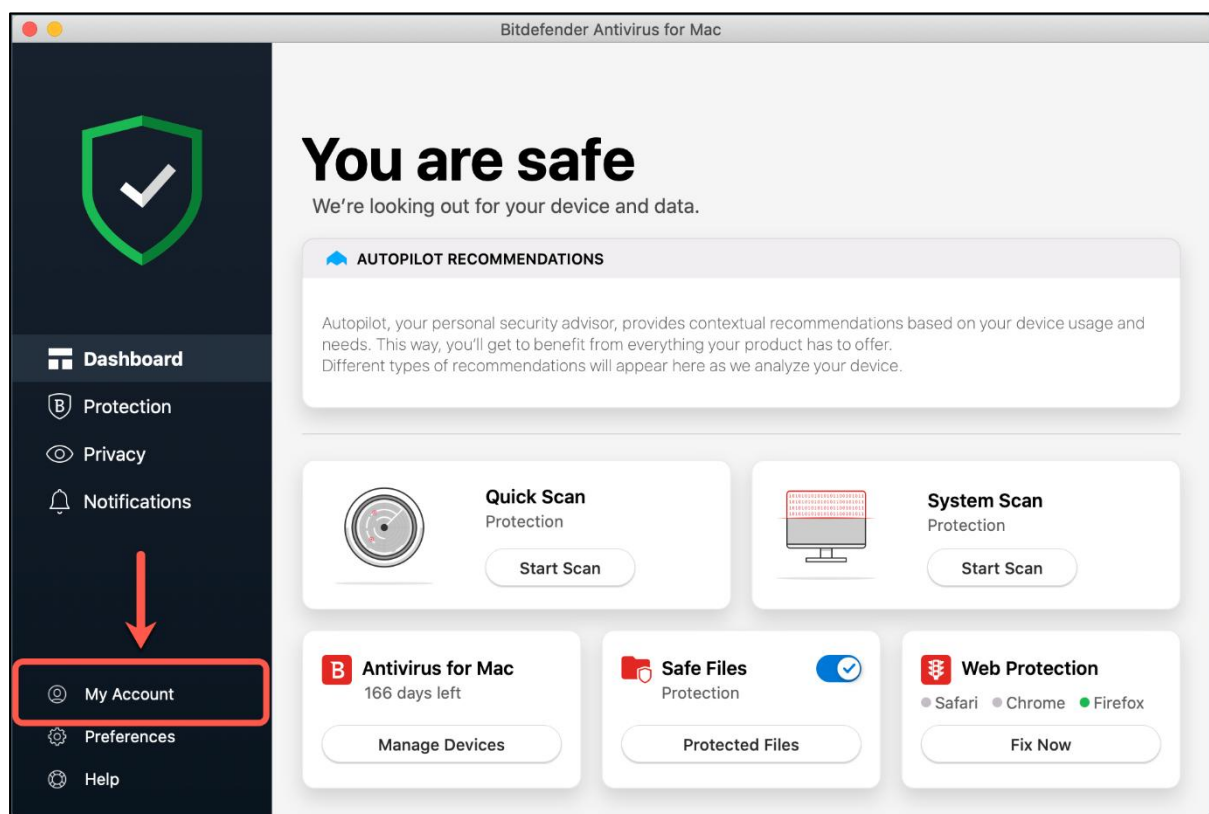

Mac

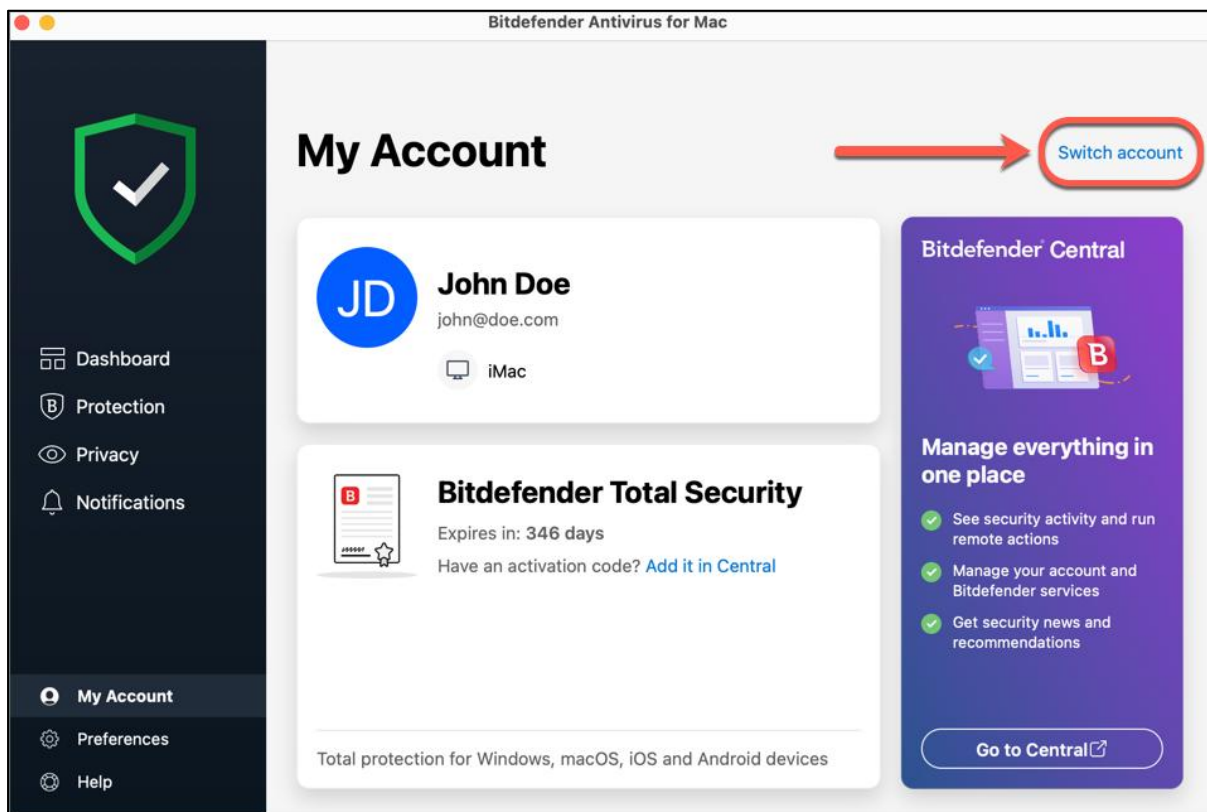

1. Click the **B** icon in the top menu bar and choose **Open Antivirus interface** to bring up Bitdefender Antivirus for Mac.

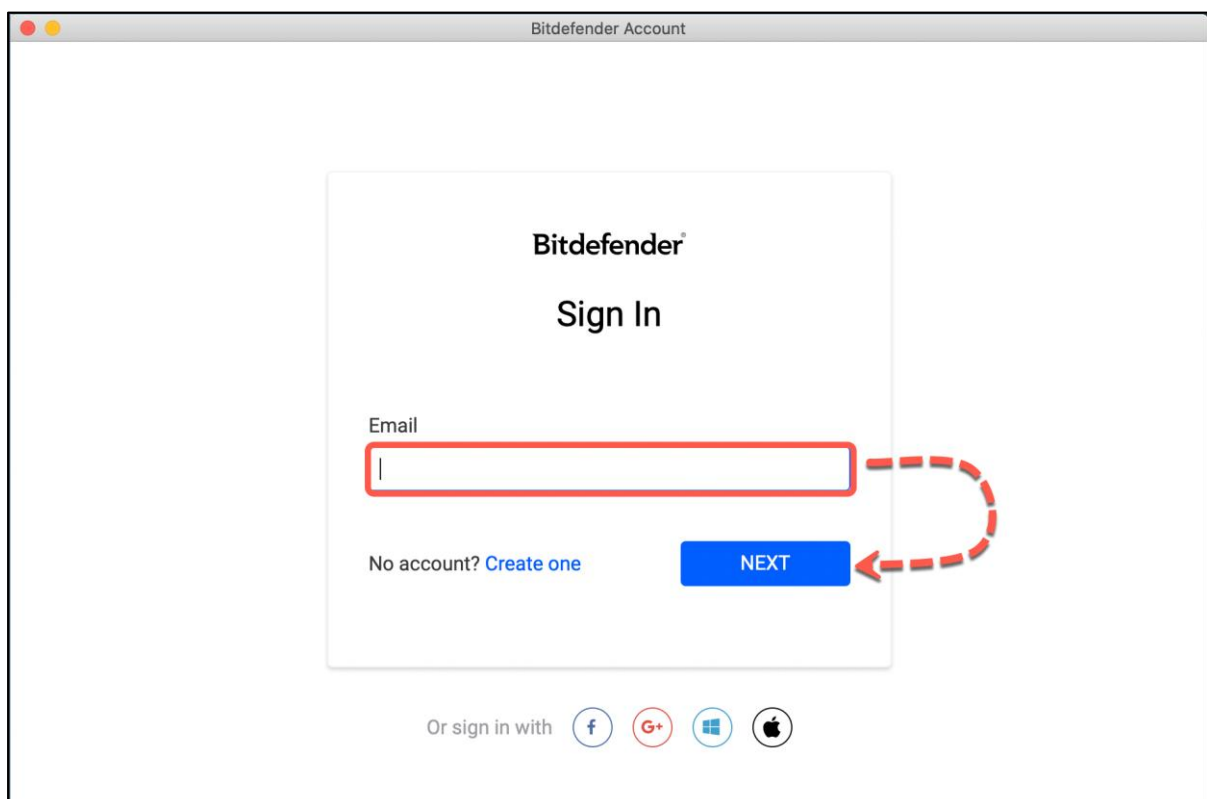

2. In the left-side column of the main window, click on **My Account**.

3. Click on **Switch Account**.

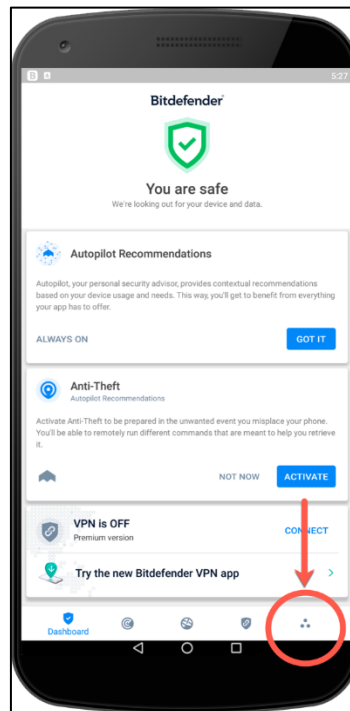

4. **Sign in** with the e-mail address and the password of the other Central account.

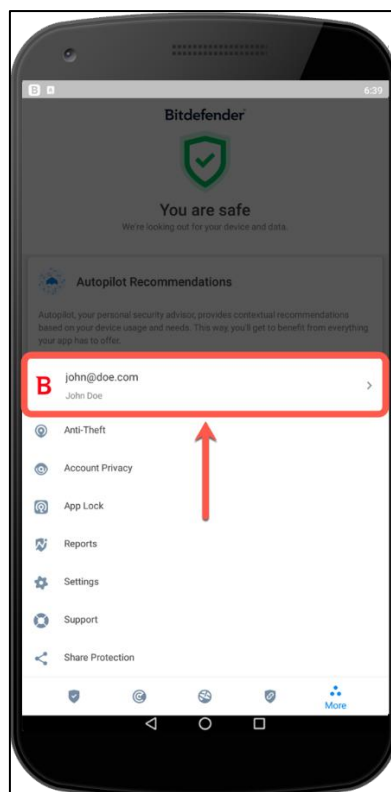

Android

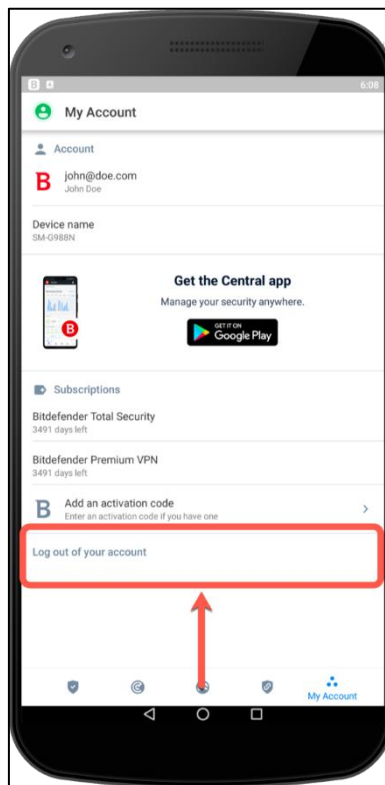

1. Open the Bitdefender Mobile Security app installed on your Android device.
2. Tap the triangle  on the bottom navigation bar.

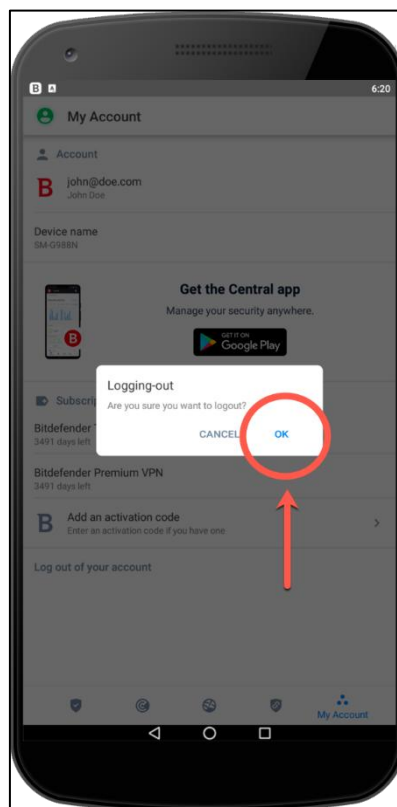

3. Tap your e-mail address.

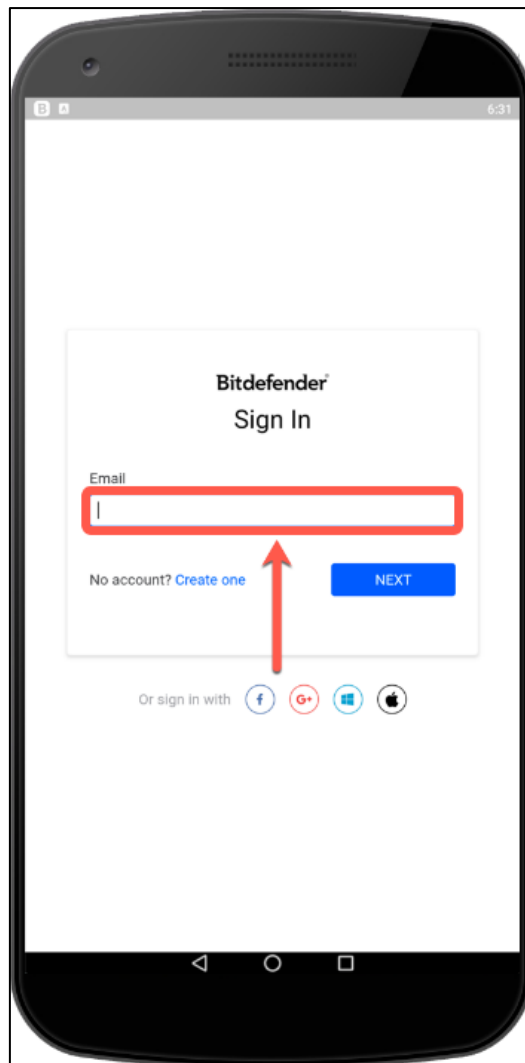

4. Choose to **Log out of your account**.

5. Tap **OK** to confirm.

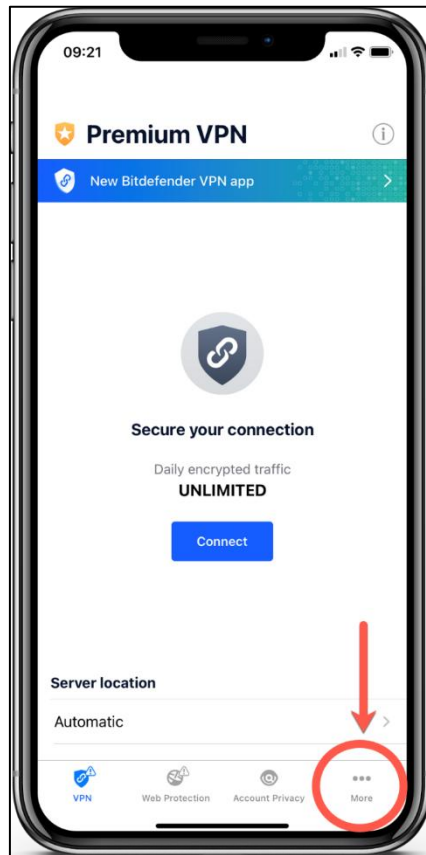

6. **Sign in** with the e-mail address and the password of the other Bitdefender Central account.

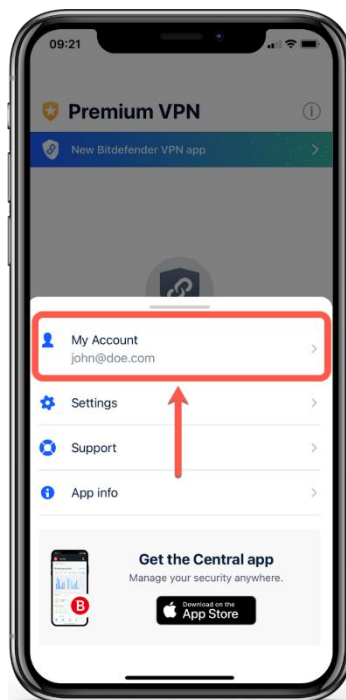

iPhone | iPad

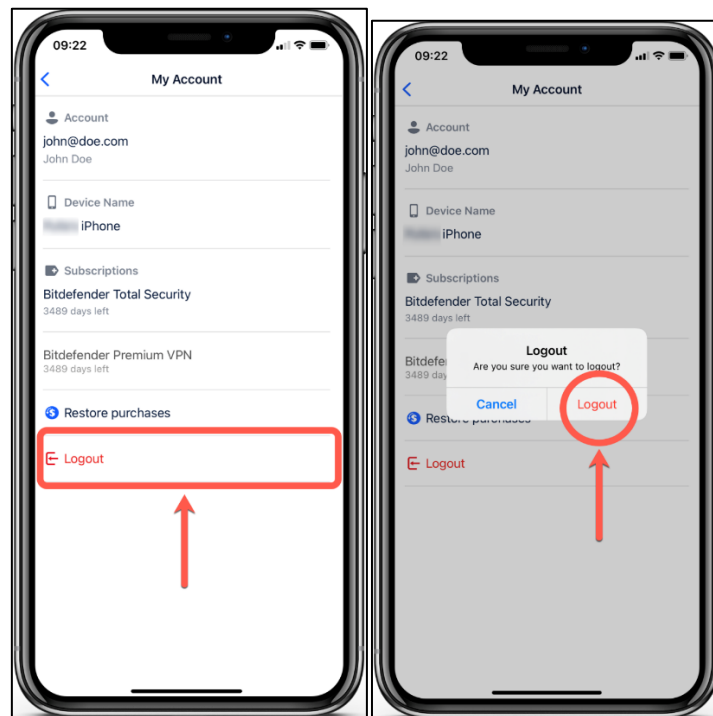

1. Open the Bitdefender Mobile Security app installed on your iPhone or iPad.
2. Tap **⋮ More** on the bottom navigation bar.

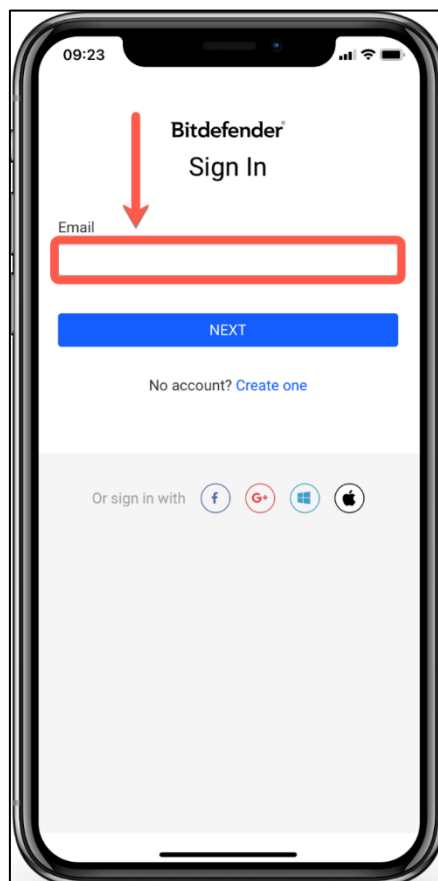

3. Choose **My Account**.

4. Tap **Logout** and then confirm the action.

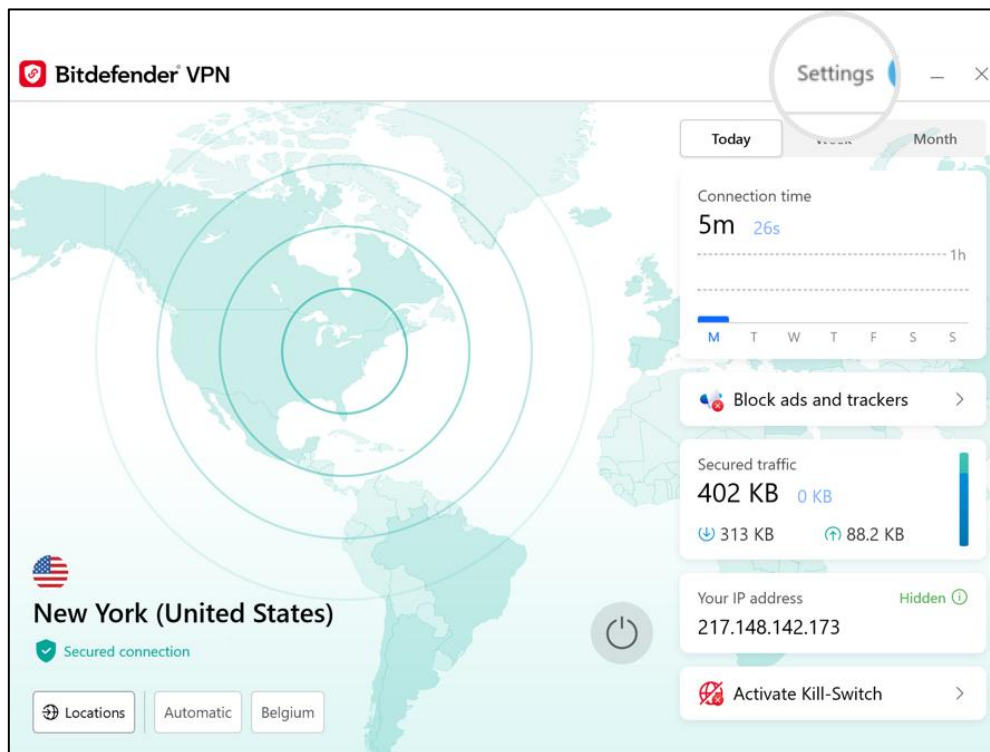

5. **Sign in** with the e-mail address and the password of the other Bitdefender Central account.
